# System Update Release Note

Change Bet Data Type

## Content

1.	Overview .....	2
2.	Estimated Release Time.....	3
3.	Change Data Type of Bet ID & Transaction ID.....	4
4.	Change of Staging End Point .....	5
5.	Change of Data Retention Period for External API.....	6

## 1. Overview

This document describes the functionality and operation of new features for upcoming major system updates:

- Change of parent bet ID and bet ID data type
- Change of length of transaction ID
- Change of staging end point
- Change of data retention period for External API

## 2. Estimated Release Time

### **Change of parent bet ID data type, bet ID data type and length of transaction ID**

Operator may request for test starting July. All operator is required to make changes (if any) by August:

- Ready for test (Test environment) : 1<sup>st</sup> July 2020
- Forced apply the changes to all operators (Test environment) : 15<sup>th</sup> July 2020
- Production release (Production environment) : 3<sup>rd</sup> August 2020

### **Change of staging end point**

New staging end point is available now. Existing endpoint will be deprecated on 15 July 2020.

### **Change of data retention period for External API**

External API data will be retained for 60 days from 27<sup>th</sup> July 2020 onwards

### 3. Change Data Type of Bet ID & Transaction ID

In order to cope with the increasing number of bets, we are going to change the data type of bet ID and transaction ID:

#### **Parent Bet Id and Bet Id**

Parent bet ID (parentBetId/parent\_bet\_id) and bet ID (betId/bet\_id) from API request and response will change to **LONG** data type. (Previously was INTEGER)

#### **Transaction Id**

STRING Data type of transaction ID (transaction\_id) remain unchanged. But need to support up to **50 characters**.

**Note: Parent Bet Id, Bet Id and Transaction Id no longer follow sequence order**

#### **Affected API**

Please refer to following for affected API:

##### **Seamless Wallet API**

###### **Transaction id**

- Bet (Cash/TransferOut)
- Payout (Cash/TransferIn)

##### **Transfer Wallet API**

N/A

##### **External API**

###### **Parent bet id, Bet id**

- Get history (GetHistory)
- Get bet history for specific time range (GetHistoryForSpecificTimeRange)
- Get bet history of specific player (GetPlayerHistory)
- Get hands summary (GetHandsSummary)
- Get operator hourly hands summary records (GetHandsSummaryHourly)

## 4. Change of Staging End Point

Please refer to following for new **staging end point**. New staging end point is available now.  
Existing endpoint will be deprecated on 15 July 2020:

### **PG Backoffice Site**

BackOffice URL change to [https://OPERATOR\\_NAME.pg-bo.me/](https://OPERATOR_NAME.pg-bo.me/)

### **External API**

External API change to <https://api.pg-bo.me/external/>

## 5. Change of Data Retention Period for External API

External API data will be retained for **60 days** from 27<sup>th</sup> July 2020 onwards.

Please refer to following for the affected API:

- Get history (GetHistory)
- Get bet history for specific time range (GetHistoryForSpecificTimeRange)
